Immediate Past Pres.	Kent Hutchison

The Rotary Four-Way Test

of the things we think, say or do:

1. *Is it the **Truth**?*
2. *Is it **Fair** to all concerned?*
3. *Will it build **good will** & better **friendships***
4. *Will it be **beneficial** to all concerned?*

Volume 1 Issue 7

Program: Club Assembly

WHAT IS A CLUB ASSEMBLY?

A club assembly is a meeting of all Rotary club members to discuss and plan the club's activities, projects, and goals. It is an informal opportunity for members to share information, brainstorm ideas, provide input, and ensure everyone is aligned with the club's objectives for the upcoming year. Key topics often include membership, service projects, and how to increase member engagement.

<u>Key purposes of a club assembly</u>

Share information and updates: Presidents and committee chairs provide updates on the club's progress, finances, and projects.

Plan and strategize: Members and leaders set annual goals, develop action plans, and brainstorm new ideas for the future.

Discuss member engagement: Assemblies are a forum to discuss how to increase member participation in activities and projects.

Address challenges: Members can openly discuss challenges the club faces and work together on solutions.

Answers on Page 6

December is Disease Prevention and Treatment Month

This is one of the Rotary Foundations Areas of Focus and one in which many of us would be aware of the numerous projects around the world supported by clubs and the Foundation.

Rotary's top priority is the eradication of polio, but our members take on far greater responsibilities to fight disease. They set up health camps and training facilities in undeveloped countries and in communities struggling with HIV/AIDS and malaria. They also design and build the infrastructure for doctors, nurses, governments, and partners to reach the one in six people in the world who can't afford to pay for healthcare.

Disease prevention and treatment takes on many forms, from supporting studies to helping immunize people to improving drinking water and the sanitation infrastructure. The world relies on Rotary to tackle these global challenges, and to set an example for others to follow.

Polio Updates

Jakarta, 21 November 2025 – Indonesia has officially ended its outbreak of poliovirus type 2, which arose from years of low polio immunization coverage. Nearly 60 million additional doses of polio vaccine were administered to children during the response.

Since June 2024, no poliovirus has been detected in children or the environment. Based on this progress, the World Health Organization (WHO) declared the outbreak closure on 19 November 2025.
